

RERA portal goes live

STAFF REPORTER

BENGALURU

Registrations under the Real Estate Regulatory Authority (RERA) started on Monday with the launch of a website that allows builders and agents to register.

Though the Karnataka RERA was formed two weeks ago, the launch of the portal effectively marks the functioning of the authority and implementation of the Act. Once the documents are uploaded on the website (rera.karnataka.gov.in), the regulator will process them and issue the final certificate. Until then, those registered are given interim registration. The portal also allows registration of complaints.

The Centre has mandated that all registrations be done within July 31.

“The portal went live on Monday,” said Kapil Mohan, Principal Secretary, Home Department.

The Karnataka government notified the Real Estate Regulatory (Regulation and Development) Act on July 10.
